Pottsville, MD 20852

Gentlemen:

Re: 98N-1230; 96P-0418; 97P-0197.

- FDA must do more than put Bacteria warning labels on egg cartons and regulate egg refrigeration temperatures.
- FDA should prohibit the practice of forced molting because forced molting has been scientifically shown to promote disease by destroying the starving hens' immune systems.
- FDA has jurisdiction to ban farm practices, such as forced molting, that injure human health.
- FDA must ban the forced molting of laying hens because forced molting is a primary cause of infectious diseases in hens, eggs, and consumers of eggs. **THE CRUELTY & CONTAMINATION ARE LINKED!**
- FDA was petitioned in April 1998 to ban forced molting. This petition should be granted without further delay.

Please respond to the request of more than 1100 no-kill humane organizations whom I represent, and their supporters, for the humane treatment of chickens as specified above.

Thank you.

Lynda J Fox  
founder, President

96P-0418
